AVID is...

AVID is an acronym that stands for Advancement Via Individual Determination. AVID is an in-school academic support program for grades 6-12 that prepares students for college eligibility and success. AVID places academically average students in advanced classes. AVID levels the playing field for minority, rural, low-income and other students without a college-going tradition in their families. AVID is for all students, but it targets those in the academic middle.

The AVID Student

AVID targets students in the academic middle (B, C, and even D students) - who have the desire to go to college and the willingness to work hard. These are students who are capable of completing rigorous curriculum but are often times falling short of their potential. Traditionally, they will be the first in their families to attend college, and many are from low-income or minority families. AVID provides these students with the support they need to get them on the college track.
